

Drain accessories

Universal adapter with a debris-catching basket

Debris-catching baskets help keep stormwater drainage systems clear and free-flowing.

To install a basket in an LK drain inlet, an additional component (adapter) is required.

Our range includes adapters with baskets. It is also possible to purchase adapters separately. All components are made of galvanized steel sheet.

Name	Index
Universal adapter with D1-type basket	81523
Universal adapter with C3-type basket	81536
Adapter for LK curb-and-road drain inlet with D1-type basket	81524
Adapter for LK curb-and-road drain inlet with C3-type basket	81537
